Tetter So Bad Could Hardly Do Any-thing. Clear White Blisters Would Burst and Peel Off. Used Cuticura Soap and Ointment. Hands Well.

R. F. D. No. 1, Oritz, Va. - "I had tetter on my bands so badly that I could hardly do anything. It would begin to come in clear white blisters, then they would burst and peel off all over and crack and bleed. My hands were so sore and itched so badly I could not rest day or night. I could not put them in water nor do my regular work. 'I tried medicine and several different kinds of cream on them but they got worse Instead of better. Nothing did me any good until I tried Cuticura Soap and Ointment. And now my hands are perfectly well and all right." (Signed) Miss Ellen Tudor,

### FACE ITCHED AND BURNED

514 7th St., Dayton, Ky. - "My little girl had a serious breaking out mostly on the face, arms and legs also feet. The breaking out was in the form of pimples which itched and burned her terribly. She would scratch until sores formed. I could not get anything to stop the itching and she was very restless and irritable and seemed to be in great torture. One day I came across the advertisement of Cuticura Soap and Cintment so I wrote for some. I kept on using the Cuticurs Soap and Ointment and in a short time my child was cured." (Signed) Mrs. V. Forester, Oct. 7, 1912.

Cuticura Soap 25c. and Cuticura Dintment 50c, are sold everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T. Boston." Men who shave and shampoo with Cuticura Soap will find it best for skin and scalp.

### THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify your hair! Make it soft, fluffy and luxuriant...Try the moist cloth.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not lich, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and straggs, just moisten a cioth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and inxuriance, the health and shimmer of true hair health.

Get a 25 cent buttle of Knowlton's Danderine from any drug store or tellet counter, and prove that your hair is as prelly and soft as any—that it has been neglected or injured by careless treatment-that's all.-AdH. WEED FARMER HAS LARGEST GRAIN CROP

Weed, N. M., Nov. 6.—W. W. Jernigen has the largest grain crop threshed in the Weed district. He has over 5000 bushels of oats and wheat, besides over 100 tons baled hay. Out crops on other farms average from 1200 bushels down as low as 100 bushels. Owing to the many destructive half, storms of the season, grain has not averaged as heavy yields as last year.

Nelson Jones murketed a large crop of tine beans, that he raised near Mayhill. A. B. Nottley, of Weed, bought the crop.

Frank Bennett and E. Gregg have purchased a hay haler and other improved machinery at Clouderoft. A large percent of the farmers are buying a fine lot of new farming tools.

A Leng of the Summit, is disposing of his stock and crops, as he is moving to the Rio Grande valley to farm next season.

ing to the Rio Grande valley to farm next season.

W. W. Jernigen's teams tore up the horse power to his threshir and he had to send it away to be repaired.

J. J. Possy, of Weed, is shipping a fine lot of cauliflower to the Kansas City market, through C. F. Knight, of Cloudcroft. Cauliflower grows to perfection here.

Local merchants are pleased as the

ction here.
Local merchants are pleased as the reserved them to any for the green's crop warf to them to any for the green's crop warfan Wells and L. L. Bell are farmers are turning their years crop over to them to pay for the groceries among obtained during the year.

MORRILL OPPOSES

INFERIOR COTTON

Phoenix, Ariz, Nov. 6.—A campaign has been started by the state entomologist, A. W. Morrill, to create sentiment against the importation of short staple and other inferior grades of cotton into Arizona, to mix with the Egyptian through cross pellination.

Numbers of the Texas pickers are complaining because Egyptian is much harder to pick than the short staple cotton, to which they are accustomed. A few farmers have been considering frying short staple next year, though the average price received therefor is nearly 10 cents a pound less than the price of Egyptian. To introduce short staple or any other cotton except Egyptian, entomologist Morrill says, would be a grave mistake. There is probably not a plant of another variety in the valley at this time.

If experiments with other varieties are made Morrill says, it should be in a way to guard against crossing with the Egyptian, which is now one of the principal crops of the valley. INFERIOR COTTON

WATER QUESTION IN CASA GRANDE COURT

Florence, Ariz. Nov. 6.—Through a legal action that is to commence in the superior court of Pinal county Nov. 7. the water rights of every acre of land in the Casa Grande valley will be adjudicated. Superior judge Frank Smith of Yavapai county, will sit in place of judge J. E. O'Connor, whi is disqualified.

Some time ago judge O'Connor issued an order allowing the land owners.

Some time ago judge O'Connor issued an order allowing the land owners under the Casa Grande canal, which has been in the hands of a receiver several years, to take possession of the ditch and clean it. Receiver Alfred C. Sieboth was directed to issue certificates to the land owners for the amount of labor each performed, these certificates to form a first lien on the property. The work was done by the farmers of the Florence and Kenilworth districts, who then refused to serve the Casa Grande district, lower down. The Casa Grande farmers filed sult to obtain 1861 the water passing through the canal. In return the farmers of the Florence and Kenilworth districts set up the claim of prior rights, which are now to be adjudicated.

It is expected that a great saving will be effected by legally adjudicating the rights before the country is more

with be effected by legally adjudicating the rights before the country is more thickly settled. When water rights were adjudicated in the Sait river valley the matter was extremely complicated and dragged through the courts a number of years.

PORTALES FRUIT GROWERS

MAKE REBARKABLE VIELDS

Pertaies, N. M., Nov. 8.—W. W. Hensley, of Delphos, whose orchard is not in the shallow water belt, has made a remarkable success with peaches and stanes. This year he has sold \$592 worth of fruit from one and one-fourth

Alex Plomquist, who has resided in Portales for seven years and who has a small truck patch in town, states that this year he will realize \$300 from one-fourth acre of truck.

Carl Johnson, who lives northwest six miles, recently shipped a ton of alfalfa to Amarillo, Texas, by express.

LAKESIDE PARMER HAS ONLY
SHLO IN NORTHERN ARIZONA
Showfiske, Ariz, Nov. 6.—Gus Hansen, a Lakeside farmer, has completed, the only silo in northern Arizona. It is made of 2x4 timber, halled the flat way. Sand was placed between the cracks and the silo was made air tight with tar. It is 12 feet in diameter and 30 feet high, and cost Hansen \$125, Hansen filled his silo with green affalfa, chopped by a corn chopper runby power from a Ford automobile engine.

### Every Farmer Can Grow Potatoes

Dark, Heavy, Soil Is Preferred to Sandy Loam for Producting Tubers of Size and Flavors for Home Use. By B. J. VILJOEN

NE of the first gratis packages, of advice handed to the newcomer in this valley is, "You can grow Irish potatoes here; in spite many attempts by old timers no rehas ever been obtained."

or the past eight years we have not many attempts by old timers no rehas ever been obtained."

or the past eight years we have not may attend and raised Irish potatoes for own use with good success, and the is no reason why every family and not have all the potatoes they in their own garden every year.

plant the potato seed (spouting toes cut into several pieces, leaving spe at least to each piece) in Mar, it the same time as corn and beans, is soon as frost ceases. The best we find is to plant the potatoes would be preferable to others, and that we have never yet tried the right kind. There seems to be no question that it may not pay to raise them for market have much irrigation can be ed. It seems twice a week would be too much to water them. It is a spart and the borders must not be had been too much to water them. It is said to make the day of the potatoes he needs for the pot of advice handed to the newcomer in this valley is, "You can
not grow Irish potatoes here; in spice
of many attempts by old timers no result has ever been obtained."

For the past eight years we have
planted and raised Irish potatoes for
our own use with good success, and
there is no reason why every family
should not have all the potatoes they
need in their own garden every year.

We plant the potato seed (sprouting
potatoes cut into several pieces, leaving
one eye at least to each piece) in Mary,
about the same time as corn and beans, one eye at least to each piece) in May, about the same time as corn and beans, or as soon as frost ceases. The best way we find is to plant the pointoes on borders or ridges, made about the same width and height as the netives make the borders for their chill. The potatoes should be planted about 1s inches apart and the borders must not be too high—just so the potato when it germinates and shoots out will be above the water line. We have never found that too much irrigation can be applied. It seems twice a week would not be too much to water them.

Dark heavy dobie soil gives the best result, as we found that sandy loam, or light rich soil gives a large growth in

## TO CONCRETE CANALS

Col. Brooks Secures Money for Davenpurt Pumping Project of 42,000
Acres Near There.
Fort Stockton, Tex., Nov. 6.—L. B.
Westerman, local contractor, has returned from Chicago where he has been buying dredging machines, concrete mixers and other modern machinery, with which to carry out the contracts recently awarded him by the Fort Stockton Irrigated Lands company. He will concrete their entire system of capals which carry the water from the Government Springs at Fort Stockton to their irrigated lands north of the city, comprising 35,000 acres.

Mr. Westerman contracted for 10,000 barrels of cement. He also has the contract for several miles of dredging and canal work on the Leon Valley irrigate! Farms project, immediately west of the city, and work will begin on this as soon as the dredgers arrive.

MAIZE AND PUMPKINS

MAIZE AND PUMPKINS

MOVING TO TUCUMCARY

Tucumcari, N. M., Nov. 6.—Roy F.

Smith has been hauling maine heads
to this city from his farm on the plains.
Several farmers have brought loads of
pumpkins. Reports from over the
country show that a larger acreage
than usual will be planted in wheat
this winter.

Lockney residents declare that they
will try for a crop this year, regardless
of weather conditions, and this seems
to be the feeling all over the county.
Silos are said to be the cause of the
feeling.

Slay Brothers on the plains are

hood who recently put up windmills.

Jordan farmers have been threshing broom corn.

PHOENIX WATERMELON MEN SEND 41 CARS TO MARKET Phoenix, Ariz, Nov. 6.—According to the annual report of the Phoenix Wa-termelon Growers' association, just compiled, 41 carloads of melons were

marketed last season and the total re-ceipts were \$5808.45.

The expenses of organization and sale were \$589.97. The first car was sold June 25 for \$22.50 a ton and the last car August 16 for \$11 a ton.

ALFALFA BRINGS 817 A Fort Stockton. Tex., Nov. 6.—The last crop of alfalfa to be cut before the recent frost is finding ready sale at \$17 per ton. It is very fine, of the choice peagreen grade. The farmers on the irrigated lands says this cut is unusually heavy and rich for unusually heavy and rich for a last cutting, due, it is said, to the increased amount of rainfall of the past month.

FINDS NEW ISLAND IN THE ATLANTIC

Halifax, N. S., Nov. 6.—The reported discovery of a new island in the Atlantic ocean was confirmed by captain Anderson, of the Canadian government steamer, Acadia, on her arrival here from an exploration trip. Captain Anderson says he found a spot of land, which would probably be three feet out of water at low spring tide.

"It is two miles inside the extremity of the East Spit as shown on the chart, and is not a danger to navigation," he said. "I think the island is the result of the gradual accumulation of sand and eventually will form a part of the main land."

The new land was first reported a week ago by the Gloucester fishing schooner, Lizzie Griffin.

The Zeiger dining room is now open until 12 oclock each night for theater parties, etc. Entrance through the lobby.—Advertisement.
